

## CONDITIONING CONVEYOR

### Mixing Grain with Water

Providing an essential process to maize milling, the Conditioning Conveyor efficiently enables the conditioning procedure for a superior final product. A rotary shaft with adjustable mixing paddles adds moisture to the grain in a controlled manner. As a result, the effectiveness of degermination and/or milling is increased and your maize meal quality is vastly improved.

# MACHINES THAT DRIVE YOUR BUSINESS

## Specifications:

Maize Conveyancing rate	up to 5000 kg/h
Number of Motors	1
Motor Power	2m versions - 1.5kW
Weight	+/- 310 kg
Crating Dimensions (L x W x H)	2m version - 2680 x 570 x 1170 mm
Add-ons	Moisture-Flow Control Unit

## Highlights

- > Adjustable paddles control throughput capacity
- > Gas lifted doors for easy cleaning
- > Minimum maintenance required
